

The McDonald's OASIS Programme

HERE'S A STARTER FOR A CAREER IN HOSPITALITY

Hospitality is an exciting career choice with loads of possibilities – from food preparation, serving customers and cooking up a storm to running a restaurant, and managing the whole business.

The McDonald's OASIS (Offering Assistance to Students in Schools) is a gateway programme that gives students interested in a hospitality career the chance to get real hands-on work experience with this world-leading business. It's also a big help for students who want to move into a hospitality job and develop a rewarding career when school finishes.

On the menu

Students on OASIS get to work with the team in a local McDonald's restaurant. They'll learn important skills that are right up with industry standards including: food safety, customer service, personal presentation and teamwork. They will also gain nationally recognised unit standards.

The OASIS programme was introduced by ServiceIQ and McDonald's to support hospitality training in schools.

How it works

Students gain their work experience with one shift a week over six weeks at a McDonald's restaurant that's close to home. Training for each student is 30 hours in total and the schedule is agreed with the student, their school and McDonald's.
